

Join an Outstanding Faculty and Department

2 Positions Available for an Integrated Food Chemistry Program

Department of Food Science and Technology,
College of Food Agricultural and Environmental Sciences,
The Ohio State University, Columbus, Ohio

Assistant Professor of Food Chemistry 60% Research and 40% Teaching

9- month, tenure track faculty position now open for an *integrated program in food chemistry* that helps elevate the stature of our department. The candidate will be expected to:

- Develop a strong, multi-disciplinary extramurally-funded research program in lipid or protein chemistry.
- Have expertise in advanced instrumental techniques related to specific areas of research.
- Teach one graduate course and one undergraduate course and participate in team taught courses. New courses should complement existing and team offerings.

Assistant Professor of Flavor Chemistry/Sensory Science 60% Teaching and 40% Research

9 - month, tenure track faculty position now open for an *integrated program in food chemistry* that helps elevate the stature of our department. The candidate will:

- Develop a strong, multidisciplinary extramurally-funded research program in flavor chemistry or sensory science.
- Have expertise in scientifically sound and advanced sensory techniques.
- Teach one graduate course and two undergraduate courses in area of expertise. New courses should complement existing and team offerings.
- Lead and oversee the activities of the sensory evaluation facility.

2015 Fyffe Road, Columbus, OH 43210-1007
Phone: (614) 247-8016 ▪ FAX: (614) 292-0218
email giusti.6@osu.edu

In addition to the skills and qualifications listed above for each position, candidates for both positions will also be expected to:

- Develop and participate in outreach programs and foster good relationships with key industry stakeholders, most notably Ohio-based companies.
- Advise and mentor graduate and undergraduate students.
- Work collaboratively with faculty and staff in the Food Science Department, Food Industries Center, Food Innovation Center, and other departments and colleges at OSU.
- Serve the University and professional communities through appropriate leadership and service activities.

Applications for both positions are welcomed by **February 1, 2012** or until the positions are filled. For more information about the application requirements, details are available at <http://fst.osu.edu> or by contacting the search committee chair directly.

To build a diverse workforce, Ohio State encourages applications from individuals with disabilities, minorities, veterans, and women. OSU requires the completion of a successful criminal background check. EEO/AA employer

Join an Outstanding Faculty and Department

- Title:** Assistant Professor of Food Chemistry, 60% Research and 40% Teaching
- Location:** Department of [Food Science and Technology](#), College of Food, Agricultural, and Environmental Sciences, The [Ohio State University](#), Columbus, OH.
- Position:** This is one of two full-time, 9- month, tenure track faculty positions now open for an *integrated program in food chemistry that helps elevate the stature of our department*. The candidate will be expected to:
- Develop a strong, multi-disciplinary extramurally-funded research program in lipid, protein chemistry or related fields.
 - Have expertise in advanced instrumental techniques related to specific areas of research.
 - Teach one undergraduate and one graduate course and participate in team teaching activities.
 - Develop and participate in outreach programs and foster good relationships with key industry stakeholders, most notably Ohio-based companies.
 - Advise and mentor graduate and undergraduate students.
 - Work collaboratively with faculty and staff in the Food Science Department, [Food Industry Center](#), [Food Innovation Center](#), and other departments and colleges at OSU.
 - Serve the University and professional communities through appropriate leadership and service activities.

Qualifications: Candidate must have a PhD in food science, nutrition sciences, chemistry or related field with a strong academic background and experience in protein, lipid, or related chemistry fields. Post-doctoral training is highly desirable. Ability to work as part of interdisciplinary teams is essential. Candidate must also possess excellent written and verbal communication skills.

Salary/Support: Salary is highly competitive based on qualifications and experience. The Ohio State University offers one of the most comprehensive [benefits packages](#) in the nation. A start-up package, including discretionary funding will be negotiated. Columbus provides outstanding cultural and social diversity. OSU has a world-class Food Science and Technology program in a newly dedicated facility with four state-of-the-art pilot plants. The Food Science and Technology Department is home to two [endowed chairs](#) plus two named professorships, supports award winning faculty and attracts outstanding students. OSU has a [Campus Chemical Instrumentation Center](#) for MS, NMR/proteomics, and a [Campus Microscopy and Imaging Facility](#). This is a tremendous opportunity to join student, staff, and faculty members who enjoy advancing society through the science of food.

Application: We welcome your application by **February 1, 2012** but this search remains open until the position is filled. Send ONE PDF file including the following: (1) Letter of interest summarizing areas of expertise, strategies for external funding and ideas for multi-disciplinary collaborations (2) a one-page description of teaching interests and philosophy and (3) curriculum vita or resume, and (4) contact information for at least three references (including complete mailing address, phone number, and e-mail address) to:
